The Golden Rule – Your Recovery Phrase Is Everything

Trust wallet Support Team (+1) 888 812 1081 – Trust Wallet is a non-custodial wallet, which means you and only you control your private keys and recovery phrase. The wallet never stores your keys on its servers. Trust wallet Support Team (+1) 888 812 1081 – this gives you complete ownership of your funds, but it also means that Trust Wallet cannot recover your assets if you lose your recovery phrase. There is no reset option – even Trust Wallet cannot help you regain access without your 12-word phrase. Trust wallet Support Team (+1) 888 812 1081 – if you still have access to your wallet but have not backed up your phrase, Call Now and we'll guide you through backing it up safely.

When Do You Need to Recover Your Wallet?

- Using a new device – if you switched to a new phone or tablet
- Accessing your wallet on multiple devices – to manage the same wallet across devices

Trust wallet Support Team (+1) 888 812 1081 – in all these scenarios, your 12-word Recovery Phrase is the only key that can restore access. Get Help by dialing our Toll-Free Number if you're unsure about any step.

Step-by-Step Recovery Process – Call for Verification

Trust wallet Support Team (+1) 888 812 1081 – follow these steps carefully to restore your Trust Wallet using your 12-word Recovery Phrase:

1. Download Trust Wallet – Install the official Trust Wallet app from the App Store (iOS) or Google Play (Android) only. Scammers often create fake apps that look identical.
2. Open the app – On the welcome screen, select "I already have a wallet" instead of creating a new one.
3. Choose recovery method – Select "Secret Phrase" as your recovery method.
4. Review the safety checklist – Carefully read all items under "Check your secret phrase is safe," then tap Continue.
5. Select wallet type – Choose "Multi-coin wallet" (recommended).
6. Enter your Recovery Phrase – Type in your 12-word Recovery Phrase exactly as it was originally written – correct spelling and order are required. Even one incorrect word or a different order will restore a completely different wallet.
7. Tap "Restore wallet" – Wait for the process to complete. Your wallet and all supported assets will be restored.
